If you have questions let me know.

I imported the data into database and then have two queries on for BWN (rescind and active) and one for inop.

If we get all the codes to match their BWN this will be a lot cleaner.

Melinda

Andy,

I am attaching the spreadsheets I exported from RM. These are really detail and show the codes that are listed for systems that have BWN. Some use codes that you would not think.

Thanks,

Melinda
